

Non-Profit/NGO Practice

Overview: ISHIR's Non-Profit industry practice helps non-profits or non-governmental organizations (NGO) leverage technology to better serve their missions and communities better. We provide non-profit with a wide array of professional, affordable technology consulting and IT services with one goal in mind - to make their non-profits more efficient and better able to focus on their mission utilizing the software they have internally, applications available to them through Microsoft and open source projects for free or reasonable licensing fees.

We help nonprofits use technology to:

- Solve mission-critical initiatives and problems
- Leverage the power of technology
- Speed to adapting mission enhancing technology
- Take their ideas to action
- Improve communications with funders and donors
- Improve accountability
- Increase operating efficiencies

Services: ISHIR strives to be meeting all technology services need of non-profits. These include:

About ISHIR

ISHIR is a global diversified outsourced IT services company and we make outsourcing successful for our clients.

We assist our clients to achieve their business objectives by successfully outsourcing their non-core business processes and functions in the areas of technology and digital marketing.

We have been part of the outsourcing industry since 1999 and have successfully implemented strategic offshore programs in the areas of custom software development, software product development, casino game development and outsourced digital marketing production services to India. ISHIR has been servicing clients thousands of miles away, maturing into a core dependable extension of a client's internal team.

ISHIR has extensive experience in providing outsourcing of non-core business processes - **IT functions** (Custom Software Development, Software maintenance, SharePoint consulting and development, mobile app development, software testing, Remote Managed IT services, Cloud and Software Virtualization solutions), Interactive (web design and development, game development), Managed Web Hosting, setting up Built Operate Transfer (BOT), specialized R&D facilities, and **non-IT functions** (Digital Marketing (Search Engine Optimization, Paid Search, Display and Social Media marketing services) Business Process Outsourcing (Data Entry, Data Cleansing, Lead Generation, Research, Photo Editing, Online Customer Support, Finance)).

We have vast experience in offshore outsourcing and have matured into a dependable outsourcing partner providing substantial value and savings to our clients, often exceeding up to 65 percent. We leverage our people, processes and effective use of technology to catapult our clients to achieve their business potential.
