

# On Demand Testing Pilot Program

Try on Demand Software Testing services with a dedicated software Tester for 20 hours in a week, free of charge!

ISHIR makes a special offer for companies considering the long-term cooperation. ISHIR's 20 hour Free Trial period allows you to work with your chosen Software Tester without any payment or signing a contract. During the 2-3 days, you will be able to determine if the Software Testing services is a good fit for your team and if outsourcing that works for you. If the Software Tester works well for you, we move into the full contract and the Software Tester can be part of your extended team; if for some reason you are not satisfied by the offshore Software tester, we can recommend another software tester and continue the process.

## What to Expect

With a trial testing project you are welcome to take a typical part of your testing cycle, like documenting test cases, manual testing a module or a function point, help you make a decision on a testing tools, to name a few. Please provide relevant documentation, guides and test cases or testing plans to ensure our testing resources have 20 hours of work to perform.

## Goal of the Pilot Project

ISHIR wants to take the unknown out of your decision of outsourcing testing. Our goal is to help receive practical results on the materials provided by the client. In addition, we would like for you to evaluate the following:

- Competence of ISHIR's Quality Assurance team
- Effectiveness of finding bugs in an application
- Evaluate the skills of ISHIR testing team in specific testing tools
- Practical knowledge in testing processes and methodologies
- Depth of training and experience in application domain
- See if offshore software assurance can work for you

## Typical Project Schedule for a Testing Pilot

- Review project requirement and functionality
- Set up project testing environment
- Testing
- Reporting of bugs in excel or bug tracking tool

## Next Step

Contact ISHIR sales representative to find out more about the program and sign up for the free trial.

## About ISHIR

ISHIR is a global diversified outsourced IT services company and we make outsourcing successful for our clients.

We assist our clients to achieve their business objectives by successfully outsourcing their non-core business processes and functions in the areas of technology and digital marketing.

We have been part of the outsourcing industry since 1999 and have successfully implemented strategic offshore programs in the areas of custom software development, software product development, casino game development and outsourced digital marketing production services to India. ISHIR has been servicing clients thousands of miles away, maturing into a core dependable extension of a client's internal team.

ISHIR has extensive experience in providing outsourcing of non-core business processes - **IT functions** (Custom Software Development, Software maintenance, SharePoint consulting and development, mobile app development, software testing, Remote Managed IT services, Cloud and Software Virtualization solutions), Interactive (web design and development, game development), Managed Web Hosting, setting up Built Operate Transfer (BOT), specialized R&D facilities, and **non-IT functions** (Digital Marketing (Search Engine Optimization, Paid Search, Display and Social Media marketing services) Business Process Outsourcing (Data Entry, Data Cleansing, Lead Generation, Research, Photo Editing, Online Customer Support, Finance)).

We have vast experience in offshore outsourcing and have matured into a dependable outsourcing partner providing substantial value and savings to our clients, often exceeding up to 65 percent. We leverage our people, processes and effective use of technology to catapult our clients to achieve their business potential.
